

MBK408 MKII

Wall mounting bracket for Bass Cabinet

► Features

- Suitable for different kinds of bass cabinets
- Easy and Quick installation
- Max weight of 60 Kg
- 15 mm Distance to Wall
- Fasteners and accessories included

► Applications

- Mounting bracket for different kinds of (Small) Bass cabinets.

The MBK408_{MKII} is a mounting bracket that can be used to mount different kinds of bass cabinets with a limited size and weight. The simple, nevertheless very efficient principle provides an easy and quick installation.

It is based on two wall brackets with V-shaped notch which have to be installed against the wall on the desired location. Two cylindrical plastic bushings have to be fixed to the provided points on the bass cabinet, using the included screws. Subsequently, the cylindrical plastic bushings have to be hooked into the V-shaped notch of the wall brackets.

This principle provides a great flexibility for installing different kinds of bass cabinets or other devices, while the distance to the wall is limited to only 15 mm.

► Specifications
