6" Full range loudspeaker cabinet

## ► Features

- Modern and Elegant design
- 2-Way speaker system
- 1" Dome tweeter
- 6" Woofer
- True to nature sound reproduction
- Included mounting bracket
- Available in Black and White
- Vertical and Horizontal mounting

## ► Applications

- Residential applications
- Retail stores
- Clubs
- Pubs
- Restaurants
- ...

The XENO series is a loudspeaker range specifically designed for fixed audio installations in modern environments, offering two different sizes of contemporary and elegant designed products. What makes them so unique is their full range audio design, allowing them to be used without additional bass cabinet.

The XENO 6 is the 6" version, featuring a 1" dome tweeter and a 6" Mid / Low frequency driver, ensuring a high-fidelity sound. This wooden cabinet is fitted with a slim and elegant front grill.

This makes the loudspeaker suitable for different kinds of environments where the audio system has to create the right atmosphere both aesthetically and musically.

This ranges from design interiors in residential applications to contemporary retail stores and restaurants where a clear background sound is desired. But the XENO 6 also shines in clubs and pubs where sound goes up when the sun goes down.

It delivers a powerful full range of sound with an RMS rating of 80 Watt, and a maximum of 160 Watt. The advanced Integrated protection circuit avoids tweeter damaging when overload occurs.

The included mounting bracket makes it possible to mount the loudspeaker in both horizontal and vertical position, making it suitable for every application.

The connections can be made on the rear side of the loudspeaker with an Euro Terminal block connector.

All Xeno series speakers are available in Black (/B) or White (/W).

## ► Specifications

SYSTEM SPECIFICATIONS		
Max power	160 W	
RMS power	80 W	
Impedance	8 Ohm	
Sensitivity 1W/1m	88 dB	
Sound pressure Max W/1m	110 dB	
Frequency response -3dB	65 Hz - 18 kHz	
Frequency range -10dB	55 Hz - 20 kHz	
Cross-over frequency	2.5 kHz	
Crossover network	Passive built-in	
PRODUCT FEATURES
